ELSEVIER Chemico-Biological Interactions 93 (1994) 259–260

Chemico-Biological Interactions

Volume contents

Volume 93 (1994)

Interaction of 1-ethynylpyrene and hepatic CYPIA1 from rainbow trout
P.C. Lee, A.K. Dasmahaptra (Milwaukee, WI) 1
Synergistic effects of *trans*-4-acetylaminostilbene and 2-acetylaminofluorene at the level of tumor initiation
R. Hammerl, T. Kirchner, H.-G. Neumann (Würzburg, Germany) 11
Benzo[*a*]pyrene inhibits protein kinase C activity in subcultured rat aortic smooth muscle cells
X. Ou, K.S. Ramos (College Station, TX) 29
Metabolism of nitrosamines and aflatoxin B_1 by hamster liver CYP2A enzymes
P. Pelkonen, G.M. Kirby, C.P. Wild, H. Bartsch, M.A. Lang (Kuopio, Finland; Montreal, Canada; Lyon, France) 41
Reaction kinetics of alkyl epoxides with DNA and other nucleophiles
A. Hemminki, T. Väyrynen, K. Hemminki (Huddinge, Sweden) 51
DNA modification induced by 6-mercaptopurine riboside in murine embryos
T. Platzek, R. Schwabe, U. Rahm, G. Bochert (Berlin, Germany) 59
Mutagenic activity of halogenated propanes and propenes: effect of bromine and chlorine positioning
M. Låg, J.G. Omichinski, E. Dybing, S.D. Nelson, E.J. Søderlund (Oslo, Norway; Seattle, WA) 73

Announcement 85
Instructions to Authors 87

The consequences of nitrofurantoin-induced oxidative stress in isolated rat hepatocytes: evaluation of pathobiochemical alterations
S. Klee, M.C. Nürnberger, F.R. Ungemach (Berlin, Germany) 91
Superoxide dismutase and catalase prevent the formation of reactive oxygen species during reduction of cyclized dopa *ortho*-quinone by DT-diaphorase
S. Baez, Y. Linderson, J. Segura-Aguilar (Stockholm and Uppsala, Sweden) 103
Effect of sulfhydryl compounds and glutathione depletion on rat heart myocyte toxicity induced by 4-hydroperoxycyclophosphamide and acrolein in vitro
R.T. Dorr, K. Lagel (Tucson, AZ) 117
Catalytic effects of glutathione peroxidase mimetics on the thiol reduction of cytochrome *c*
L. Engman, A. Tunek, M. Hallberg, A. Hallberg (Lund and Uppsala, Sweden) 129
Fluorescence spectroscopic studies on the identification and quantification of 7H-dibenzo[*c*,*g*]carbazole and dibenz[*a*,*j*]acridine metabolites
J. Schneider, W. Xue, D. Warshawsky (Cincinnati, OH) 139
Hemichrome formation, lipid peroxidation, enzyme inactivation and protein degradation as indexes of oxidative damage in homogenates of chicken kidney and liver
H.J. Andersen, L. Pellett, A.L. Tappel (Frederiksberg, Denmark; Davis, CA) 155
